

Aberrant NMDA receptor and synaptic signaling in vulnerability to neurodegeneration: Focus on Huntington disease

<https://neurodegenerationresearch.eu/survey/aberrant-nmda-receptor-and-synaptic-signaling-in-vulnerability-to-neurodegeneration-focus-on-huntington-disease/>

Principal Investigators

Raymond, Lynn A

Institution

University of British Columbia

Contact information of lead PI

Country

Canada

Title of project or programme

Aberrant NMDA receptor and synaptic signaling in vulnerability to neurodegeneration: Focus on Huntington disease

Source of funding information

CIHR

Total sum awarded (Euro)

€ 1,470,140

Start date of award

01/07/2015

Total duration of award in years

7.0

The project/programme is most relevant to:

Huntington's disease

Keywords

Research Abstract

Lay Summary

Further information available at:

Types:

Investments > €500k

Member States:

Canada

Diseases:

Huntington's disease

Years:

2016
