## **Principal Investigators**

Paul KRACK

## **Institution**

CHU Grenoble

## **Contact information of lead PI**

### **Country**

France

## **Title of project or programme**

Amélioration des addictions comportementales de patients parkinsoniens traités par stimulation subthalamique : suivi à long terme. Improvement of behavioral addictions of parkinsonian patients treated with subthalamic stimulation: long - term follow - up.

## **Source of funding information**

DGOS

## **Total sum awarded (Euro)**

€ 49,491

## **Start date of award**

xx/xx/2012

## **Total duration of award in years**

4

**Keywords**

**Research Abstract**

**Further information available at:**

**Types:**

Investments < €500k

**Member States:**

France

**Diseases:**

N/A

**Years:**

2016

**Database Categories:**

N/A
