Project/infrastructure description

The aim of the program "Dementia: agency, personhood and everyday life" is to contribute and build a Swedish and international basic research in the area of how to live with dementia. The central concern of this research program is the way persons with age related dementias, especially AD, experience and deal with their disease in everyday activities and relationships.

Date funding committed

01-01-2011

Date infrastructure operational**Total capital cost (Euros)**

€ 3,699,673

Does the 'Total Capital Cost' include other associated costs?

No

Current infrastructure status

Operational

Is this entry applicable to another section of this questionnaire?

Not applicable
