01/01/16

Total duration of award in years

4.0

The project/programme is most relevant to:

Alzheimer's disease & other dementias

Keywords

dementia | community care | health services research | ageing | population health

Research Abstract

This research will develop tools and assess the impact of the delivery of Consumer Directed Care for people living with dementia in receipt of a Home Care Package. It will also translate the findings into an intervention aimed at building the capacity of service providers and consumers to work together to improve care outcomes for people with dementia.
