

Determining the contribution of peripheral immune complement signalling in the progression of motor neuron disease

<https://www.neurodegenerationresearch.eu/survey/determining-the-contribution-of-peripheral-immune-complement-signalling-in-the-progression-of-motor-neuron-disease/>

Principal Investigators

A/Pr Trent Woodruff

Institution

University of Queensland

Contact information of lead PI

Country

Australia

Title of project or programme

Determining the contribution of peripheral immune complement signalling in the progression of motor neuron disease

Source of funding information

National Health and Medical Research Council

Total sum awarded (Euro)

€ 661,249

Start date of award

01/01/2015

Total duration of award in years

5.0

The project/programme is most relevant to:

Motor neurone diseases

Keywords

Research Abstract

Lay Summary

Further information available at:

Types:

Investments > €500k

Member States:

Australia

Diseases:

Motor neurone diseases

Years:

2016

Database Categories:

N/A
