

# Development of a high-throughput screen to identify disease-modifying agents using primary neurons from a novel TDP-43-associated mouse model of motor neurone disease

<https://neurodegenerationresearch.eu/survey/development-of-a-high-throughput-screen-to-identify-disease-modifying-agents-using-primary-neurons-from-a-novel-tdp-43-associated-mouse-model-of-motor-neurone-disease/>

## **Principal Investigators**

Prof Kevin Talbot

## **Institution**

University of Oxford

## **Contact information of lead PI**

### **Country**

United Kingdom

## **Title of project or programme**

Development of a high-throughput screen to identify disease-modifying agents using primary neurons from a novel TDP-43-associated mouse model of motor neurone disease

## **Source of funding information**

MND Association

## **Total sum awarded (Euro)**

€ 309,179

## **Start date of award**

01/07/2015

## **Total duration of award in years**

3

## **Keywords**

Research Abstract
