

# Effects of acute and regular exercise on myokines and microRNAs in circulation and cerebrospinal fluid in relation to cognitive functions and metabolism of patients with neurodegenerative disease.

<https://neurodegenerationresearch.eu/survey/effects-of-acute-and-regular-exercise-on-myokines-and-micrnas-in-circulation-and-cerebrospinal-fluid-in-relation-to-cognitive-functions-and-metabolism-of-patients-with-neurodegenerative-disease/>

## **Principal Investigators**

Ukropcová Barbara

## **Institution**

Institute of Experimental Endocrinology of the Slovak Academy of Sciences

## **Contact information of lead PI**

### **Country**

Slovakia

## **Title of project or programme**

Effects of acute and regular exercise on myokines and microRNAs in circulation and cerebrospinal fluid in relation to cognitive functions and metabolism of patients with neurodegenerative disease.

## **Source of funding information**

Ministry of Education, Science, Research and Sport of the Slovak Republic

## **Total sum awarded (Euro)**

€ 70,196

## **Start date of award**

01/01/2015

## **Total duration of award in years**

2

## **Keywords**

## Research Abstract
