Principal Investigators

MOCHEL Fanny

Institution

APHP

Contact information of lead PI

Country

France

Title of project or programme

Etude de phase IIa dans la maladie de Huntington visant à évaluer le potentiel thérapeutique du resvératrol. Phase IIa study in Huntington disease to evaluate the therapeutic potential of resveratrol

Source of funding information

DGOS

Total sum awarded (Euro)

€ 517,807

Start date of award

xx/xx/2013

Total duration of award in years

3.0

The project/programme is most relevant to:

Huntington's disease

Keywords

Research Abstract

Lay Summary
