

From microstructure to clinical practice in early Huntington disease: a multimodal magnetic resonance study

<https://www.neurodegenerationresearch.eu/survey/from-microstructure-to-clinical-practice-in-early-huntington-disease-a-multimodal-magnetic-resonance-study/>

Name of Fellow

CAMARA MANCHA, ESTELA

Institution

Funder

Clinical

Contact information of fellow

Country

Spain

Title of project/programme

From microstructure to clinical practice in early Huntington disease: a multimodal magnetic resonance study

Source of funding information

Clinical

Total sum awarded (Euro)

€ 121,500

Start date of award

31/01/14

Total duration of award in years

3.0

The project/programme is most relevant to:

Huntington's disease

Keywords

microstructure | Huntington disease | multimodal magnetic resonance

Research Abstract

Types:

Fellowships

Member States:

Spain

Diseases:

Huntington's disease

Years:

2016

Database Categories:

N/A

Database Tags:
