

Functional genomics approach to extend lifespan while preventing age-related cognitive decline

<https://neurodegenerationresearch.eu/survey/functional-genomics-approach-to-extend-lifespan-while-preventing-age-related-cognitive-decline/>

Principal Investigators

A/Pr Graham Neely

Institution

University of Sydney

Contact information of lead PI Country

Australia

Title of project or programme

Functional genomics approach to extend lifespan while preventing age-related cognitive decline

Source of funding information

National Health and Medical Research Council

Total sum awarded (Euro)

€ 524,889

Start date of award

01/01/2016

Total duration of award in years

4.0

The project/programme is most relevant to:

Alzheimer's disease & other dementias

Keywords

Research Abstract

Lay Summary

Further information available at:

Types:

Investments > €500k

Member States:

Australia

Diseases:

Alzheimer's disease & other dementias

Years:

2016
