

Imaging Neurodegenerative Disease

<https://neurodegenerationresearch.eu/survey/imaging-neurodegenerative-disease/>

Name of Fellow

Prof Christopher Rowe

Institution

Funder

NHMRC

Contact information of fellow

Country

Australia

Title of project/programme

Imaging Neurodegenerative Disease

Source of funding information

NHMRC

Total sum awarded (Euro)

€ 222,891

Start date of award

01/01/13

Total duration of award in years

5.0

The project/programme is most relevant to:

Alzheimer's disease & other dementias

Keywords

imaging | alzheimer disease | parkinson disease | amyloid beta-protein | diagnostic imaging

Research Abstract

Advances in positron emission tomography now allow specific pathological features of many brain diseases such as Alzheimer's disease to be measured with a brain scan during life. This Fellowship will assist Professor Rowe and his team in their world leading work on new PET scanning techniques to improve diagnosis and assist the development of treatment for

Alzheimer's and other degenerative diseases of the brain.

Types:

Fellowships
