

Imaging of Neurodegeneration

<https://www.neurodegenerationresearch.eu/survey/imaging-of-neurodegeneration/>

Name of Fellow

A/Pr Victor Villemagne

Institution

Funder

NHMRC

Contact information of fellow

Country

Australia

Title of project/programme

Imaging of Neurodegeneration

Source of funding information

NHMRC

Total sum awarded (Euro)

€ 458,752

Start date of award

01/01/13

Total duration of award in years

5.0

The project/programme is most relevant to:

Alzheimer's disease & other dementias

Keywords

alzheimer disease | frontotemporal dementia | neurodegenerative disorders | molecular imaging
| ageing

Research Abstract

This research proposal outlines studies aimed at identifying specific biomarkers of neurodegeneration. Given the complexity and clinical overlap of these disorders the identification of diagnostic biomarkers for their early detection is crucial; especially in the

identification of at-risk individuals before the development of symptoms. This will allow early intervention with disease-modifying medications which by arresting neuronal loss would prevent or delay onset of the disease.

Types:

Fellowships

Member States:

Australia

Diseases:

Alzheimer's disease & other dementias
