

Impairment of Synaptic Vesicles function in Alzheimer Disease

<https://neurodegenerationresearch.eu/survey/impairment-of-synaptic-vesicles-function-in-alzheimer-disease/>

Principal Investigators

MULLE Christophe

Institution

Institut Interdisciplinaire des Neurosciences, UMR CNRS 5297, Université de Bordeaux.

Contact information of lead PI

Country

France

Title of project or programme

Impairment of Synaptic Vesicles function in Alzheimer Disease

Source of funding information

Fondation Plan Alzheimer

Total sum awarded (Euro)

€ 100,880

Start date of award

xx/xx/2015

Total duration of award in years

2

Keywords

Research Abstract
