4.0

**The project/programme is most relevant to:**

Alzheimer's disease & other dementias

**Keywords**

alzheimer disease | dementia care | randomised controlled trial (rct) | intervention study | aged care

**Research Abstract**

This fellowship aims to develop innovative interventions to improve quality of life for people

living with dementia. Projects include a dance program for people with moderate dementia living in residential care, an intergenerational program involving pre-schoolers and people with dementia, a culture change program in residential care, and an online program to support carers of people with dementia.
