# Integrated genomic and biochemical studies to understand the molecular mechanisms of neurodegenerative disease and the development of new therapeutics

https://neurodegenerationresearch.eu/survey/integrated-genomic-and-biochemical-studies-to-understand-the-molecular-mechanisms-of-neurodegenerative-disease-and-the-development-of-new-therapeutics/

### **Principal Investigators**

Judit Mária Molnár

Institution

Semmelweis Egyetem

Contact information of lead PI Country

Hungary

Title of project or programme

Integrated genomic and biochemical studies to understand the molecular mechanisms of neurodegenerative disease and the development of new therapeutics

**Source of funding information** 

**NKFIH** 

Total sum awarded (Euro)

€ 937,124

Start date of award

01/01/2015

Total duration of award in years

4.0

The project/programme is most relevant to:

Neurodegenerative disease in general|Parkinson's disease & PD-related disorders

Keywords Research Abstract

# Lay Summary Further information available at:
