## Principal Investigators

Mr George Heaton

## Institution

University College London

## Contact information of lead PI Country

United Kingdom

## Title of project or programme

Investigation into LRRK2 vesicular trafficking pathways to provide further insight into Parkinson's disease pathogenesis.

## Source of funding information

The Wellcome Trust

## Total sum awarded (Euro)

€ 108,464

## Start date of award

01/10/2015

## Total duration of award in years

4

## Keywords

### Research Abstract

How do Parkinson's disease causing mutations in LRRK2 impact vesicular trafficking within the trans-golgi network (TGN)? In addition, what is the functional nature of LRRK2- arfaptin-2 and ARL6IP1 interactions within this pathway?
