Title of project or programme

Manipulating Alzheimer's disease by ablating microglia and by transgenic restriction of anti-A antibodies to the periphery (part of Transregion project: 'The brain as a target of inflammatory processes')

Principal Investigators of project/programme grant

Title	Forname	Surname	Institution	Country
Prof.	Frank	Heppner		Germany

Address of institution of lead PI

Institution

Street Address

City Berlin

Postcode 10117

Country

Germany

Source of funding information

Deutsche Forschungsgemeinschaft

Total sum awarded (Euro)

716000

Start date of award

11-11-2010

Total duration of award in months

36

The project/programme is most relevant to

- Alzheimer's disease and other dementias

Keywords

Research abstract in English
