Principal Investigators

DESTEE Alain

Institution

CHR Lille

Contact information of lead PI

Country

France

Title of project or programme

Marqueurs précoces de la maladie de Parkinson liés aux dérèglements des voies de la survie cellulaire. Early markers of Parkinson's disease related to disorders of cell survival pathways

Source of funding information

DGOS

Total sum awarded (Euro)

€ 988,000

Start date of award

xx/xx/2010

Total duration of award in years

6.0

The project/programme is most relevant to:

Parkinson's disease & PD-related disorders

Keywords

Research Abstract

Lay Summary

Further information available at:

Types:

Investments > €500k

Member States:

France

Diseases:

Parkinson's disease & PD-related disorders

Years:

2016
