

NEURO-MIR (microRNA as novel therapeutic targets and disease biomarkers in Alzheimer's Disease, Frontotemporal dementia and Amyotrophic lateral sclerosis)

<https://neurodegenerationresearch.eu/survey/microrna-as-novel-therapeutic-targets-and-disease-biomarkers-in-alzheimers-disease-frontotemporal-dementia-and-amyotrophic-lateral-sclerosis-neuro-mir/>

Name of Resource (to include any acronym)

Neuromir (incl MirNAMEConverter)

Question

Related

Name of Resource

NEURO-MIR (microRNA as novel therapeutic targets and disease biomarkers in Alzheimer's Disease, Frontotemporal dementia and Amyotrophic lateral sclerosis)

Name of Principal Investigator - Title

Prof

Name of Principal Investigator - First Name

Jochen

Name of Principal Investigator - Last Name

Prehn

Address of institution -Institution

Royal College of Surgeons in Ireland

Address of institution - Street address

123 St Stephen's Green

Address of institution - City

Dublin

Address of institution - Postcode

2

Country

Ireland

Website

www.neuromir.eu

Contact email

prehn@rcsi.ie

Purpose of resource

miRNA repository of AD/FTD and ALS-associated miRNA incl. miRNA analysis tools and miR name converter

Q1. Is the resource?

General (e.g. DNA sequence, proteomic data)|Designed for use in basic neuroscience research|Designed for use in clinical neurosciences research

Please Specify

Q2. Does the resource specifically provide for any of the neurodegenerative diseases/disease subtypes specified below?

Alzheimer's disease and other dementias|Motor neurone disease

Q3a. Is the resource accessible to the research community?

Yes

Q3b. If yes, what procedures and rules apply for access?

Access independent of collaboration with PI|International access|Access to industry

Q4a. What type of data is provided?

Transcriptomics

Please describe

Q4b. More generally are there other data available through the resource that you think may be useful to researchers in the context of the above conditions?

Please describe

Q5a. Is maintenance of this resource dependent on continued funding?

Yes

Q5b. If yes, when does the current funding period end?

Expired

Q5c. Are there plans to secure further funding beyond this period?

Don't know

If YES please specify for how long in years

Q5d. What is the expected lifespan of the resource (in years)?

>5

Q5e. Are there other plans affecting future use that it may be useful to know?

Types:

Bio/Neuroinformatic Resources

Member States:

Ireland

Diseases:

Alzheimer's disease & other dementias, Motor neurone diseases

Years:

2016

Database Categories:

N/A

Database Tags:

N/A
