

# Mitochondrial dysfunction in the pathogenesis of Parkinson's disease: identifying novel disease mechanisms and designing treatments

[https://neurodegenerationresearch.eu/survey/mitochondrial-dysfunction-in-the-pathogenesis-of-parkinson%  
c2%92s-disease-identifying-novel-disease-mechanisms-and-designing-treatments/](https://neurodegenerationresearch.eu/survey/mitochondrial-dysfunction-in-the-pathogenesis-of-parkinson%c2%92s-disease-identifying-novel-disease-mechanisms-and-designing-treatments/)

## Principal Investigators

Charalampos Tzoulis

## Institution

Helse Bergen HF

## Contact information of lead PI Country

Norway

## Title of project or programme

Mitochondrial dysfunction in the pathogenesis of Parkinson's disease: identifying novel disease mechanisms and designing treatments

## Source of funding information

Helse Vest RHF

## Total sum awarded (Euro)

€ 686,784

## Start date of award

01/01/2014

## Total duration of award in years

4.0

## The project/programme is most relevant to:

Parkinson's disease & PD-related disorders

## Keywords

Research Abstract

Lay Summary

Further information available at:

**Types:**

Investments > €500k

**Member States:**

Norway

**Diseases:**

Parkinson's disease & PD-related disorders

**Years:**

2016

**Database Categories:**

N/A

**Database Tags:**
