

Modulating memory circuits: focal DBS treatments to improve medial temporal lobe function

<https://neurodegenerationresearch.eu/survey/modulating-memory-circuits-focal-dbs-treatments-to-improve-medial-temporal-lobe-function/>

Principal Investigators

Kari Hoffman

Institution

York U

Contact information of lead PI

Country

Canada

Title of project or programme

Modulating memory circuits: focal DBS treatments to improve medial temporal lobe function

Source of funding information

Brain Canada Krembil Foundation

Total sum awarded (Euro)

€ 924,863

Start date of award

01/01/2015

Total duration of award in years

3.0

The project/programme is most relevant to:

Alzheimer's disease & other dementias

Keywords

Research Abstract

Lay Summary

Further information available at:

Types:

Investments > €500k

Member States:

Canada

Diseases:

Alzheimer's disease & other dementias

Years:

2016
