

# Modulating memory circuits: focal DBS treatments to improve medial temporal lobe function

<https://www.neurodegenerationresearch.eu/survey/modulating-memory-circuits-focal-dbs-treatments-to-improve-medial-temporal-lobe-function/>

## Principal Investigators

Kari Hoffman

## Institution

York U

## Contact information of lead PI

### Country

Canada

## Title of project or programme

Modulating memory circuits: focal DBS treatments to improve medial temporal lobe function

## Source of funding information

Brain Canada Krembil Foundation

## Total sum awarded (Euro)

€ 924,863

## Start date of award

01/01/2015

## Total duration of award in years

3.0

## The project/programme is most relevant to:

Alzheimer's disease & other dementias

## Keywords

Research Abstract

Lay Summary

Further information available at:

Types:

Investments > €500k

**Member States:**

Canada

**Diseases:**

Alzheimer's disease & other dementias

**Years:**

2016

**Database Categories:**

N/A
