

Molecular mechanisms of the regulation of glial glutamate transporters: implication in the progression of the amyotrophic lateral sclerosis

<https://www.neurodegenerationresearch.eu/survey/molecular-mechanisms-of-the-regulation-of-glial-glutamate-transporters-implication-in-the-progression-of-the-amyotrophic-lateral-sclerosis/>

Title of project or programme

Molecular mechanisms of the regulation of glial glutamate transporters: implication in the progression of the amyotrophic lateral sclerosis

Principal Investigators of project/programme grant

Title	Forname	Surname	Institution	Country
-------	---------	---------	-------------	---------

Prof.	Emmanuel	Hermans	UCL	Belgium
-------	----------	---------	-----	---------

Address of institution of lead PI

Institution

Street Address Avenue Hippocrate

City Bruxelles

Postcode 1200

Country

- Belgium

Source of funding information

Fonds de la Recherche Scientifique – FNRS (Fund for Scientific Research)

Total sum awarded (Euro)

668800

Start date of award

01-01-2007

Total duration of award in months

72

The project/programme is most relevant to

- Spinal muscular atrophy (SMA)

Keywords

amyotrophic lateral sclerosis

Research abstract in English

Lay summary
