Title of project or programme

Network Project: NCFHEB – NorChlor-Fluor-HomoEpiBatidin (NCFHEB) – a potential positron emission tomography (PET) marker of early Alzheimer’s disease

Principal Investigators of project/programme grant

Title	Forename	Surname	Institution	Country
-------	----------	---------	-------------	---------

Prof.	Osama	Sabri		Germany
-------	-------	-------	--	---------

Address of institution of lead PI

Institution

Street Address Stephanstr. 11

City Leipzig

Postcode 4103

Country

Germany

Source of funding information

Federal Ministry of Education and Research (BMBF)

Total sum awarded (Euro)

2100000

Start date of award

01-07-2008

Total duration of award in months

36

The project/programme is most relevant to

- Alzheimer’s disease and other dementias

Keywords
