## **Principal Investigators**

Anne-Catherine BACHOUD-LEVI

## **Institution**

APHP Paris

## **Contact information of lead PI Country**

France

## **Title of project or programme**

Neuroleptiques et Maladie de Huntington - Comparaison de l'olanzapine, la tétrabénazine et du tiapride - Un essai multicentrique contrôlé, randomisé. Neuroleptics and Huntington's Disease - Comparison of olanzapine, tetrabenazine and tiapride - A controlled, randomized, multicentre trial

## **Source of funding information**

DGOS

## **Total sum awarded (Euro)**

€ 225,378

## **Start date of award**

xx/xx/2012

## **Total duration of award in years**

4

**Keywords**

Research Abstract

Further information available at:

**Types:**

Investments < €500k

**Member States:**

France

**Diseases:**

N/A

**Years:**

2016

**Database Categories:**
