# Neuronal toll-like 2 receptors contribute to the spread of Parkinson's disease

https://neurodegenerationresearch.eu/survey/neuronal-toll-like-2-receptors-contribute-to-the-spread-of-parkinsons-disease/

### **Principal Investigators**

Prof Glenda Halliday

#### Institution

University of New South Wales

# Contact information of lead PI Country

Australia

### Title of project or programme

Neuronal toll-like 2 receptors contribute to the spread of Parkinson's disease

## Source of funding information

National Health and Medical Research Council

Total sum awarded (Euro)

€ 611.449

Start date of award

01/01/2016

**Total duration of award in years** 

4.0

#### The project/programme is most relevant to:

Parkinson's disease & PD-related disorders

Keywords
Research Abstract
Lay Summary
