

Optogenetically-controlled restoration of muscle function in ALS model mice using engrafted ES-derived motor neurons

<https://www.neurodegenerationresearch.eu/survey/optogenetically-controlled-restoration-of-muscle-function-in-als-model-mice-using-engrafted-es-derived-motor-neurons/>

Principal Investigators

Prof Linda Greensmith

Institution

University College London

Contact information of lead PI Country

United Kingdom

Title of project or programme

Optogenetically-controlled restoration of muscle function in ALS model mice using engrafted ES-derived motor neurons

Source of funding information

MND Association

Total sum awarded (Euro)

€ 310,695

Start date of award

01/08/2014

Total duration of award in years

3

Keywords

Research Abstract

Further information available at:

Types:

Investments < €500k
