

Population based genotype-phenotype correlation to stratify incident cases of patients with motor neurone

<https://www.neurodegenerationresearch.eu/survey/population-based-genotype-phenotype-correlation-to-stratify-incident-cases-of-patients-with-motor-neurone/>

Name of Fellow

Dr Danielle Leighton

Institution

Funder

MND Association

Contact information of fellow

Country

United Kingdom

Title of project/programme

Population based genotype-phenotype correlation to stratify incident cases of patients with motor neurone

Source of funding information

MND Association

Total sum awarded (Euro)

€ 86,156

Start date of award

05/08/15

Total duration of award in years

3.0

The project/programme is most relevant to:

Motor neurone diseases

Keywords

Research Abstract

This is a Clinical Research Training Fellowship, administered by the Office of the Scottish Chief

Scientist. The grant amount is the total contribution by the MND Association to the MRC over the grant lifetime. MND Scotland also contribute.

Types:

Fellowships

Member States:

United Kingdom

Diseases:

Motor neurone diseases

Years:

2016
