

Regenerative Neuroscience Strategies for Healthy Brain Ageing and Dementia

<https://www.neurodegenerationresearch.eu/survey/regenerative-neuroscience-strategies-for-healthy-brain-ageing-and-dementia/>

Name of Fellow

A/Pr Michael Valenzuela

Institution

Funder

NHMRC

Contact information of fellow

Country

Australia

Title of project/programme

Regenerative Neuroscience Strategies for Healthy Brain Ageing and Dementia

Source of funding information

NHMRC

Total sum awarded (Euro)

€ 314,996

Start date of award

01/01/16

Total duration of award in years

4.0

The project/programme is most relevant to:

Alzheimer's disease & other dementias

Keywords

dementia | prevention | clinical trial | neuroimaging | epidemiology

Research Abstract

Promotion of healthy brain ageing and prevention of dementia are amongst Australia's greatest

medical challenges and of utmost concern to the public. This Fellowship will support a multidisciplinary approach to these challenges based around regenerative neuroscience. Valenzuela's group is a world leader in the science and practice of brain plasticity, and will lead twelve interlinked studies aimed at developing better ways to prevent dementia.

Types:

Fellowships

Member States:

Australia

Diseases:

Alzheimer's disease & other dementias

Years:

2016
