Name of Fellow

Shah Disha

Institution

Funder

Contact information of fellow

Country

Belgium

Title of project/programme

Resting state functional MRI as a tool to evaluate synaptic transmission deficits possibly elicited by soluble amyloid and inflammation in a mouse model of amyloidosis

Source of funding information

Total sum awarded (Euro)

€ 148,271

Start date of award

01/01/14

Total duration of award in years

4.0

The project/programme is most relevant to:

Alzheimer's disease & other dementias

Keywords

functional MRI | synaptic transmission | model of amyloidosis

Research Abstract

Types:

Fellowships

Member States:

Belgium

Diseases:

Alzheimer's disease & other dementias

Years:

2016

Database Categories:

N/A
