

Standardising protocols for the differentiation and integration of human pluripotent stem cell-derived neural transplants in Parkinson's disease

<https://neurodegenerationresearch.eu/survey/standardising-protocols-for-the-differentiation-and-integration-of-human-pluripotent-stem-cell-derived-neural-transplants-in-parkinsons-disease/>

Principal Investigators

A/Pr Clare Parish

Institution

University of Melbourne

Contact information of lead PI

Country

Australia

Title of project or programme

Standardising protocols for the differentiation and integration of human pluripotent stem cell-derived neural transplants in Parkinson's disease

Source of funding information

National Health and Medical Research Council

Total sum awarded (Euro)

€ 670,999

Start date of award

01/01/2016

Total duration of award in years

4.0

The project/programme is most relevant to:

Parkinson's disease & PD-related disorders

Keywords

Research Abstract

Lay Summary

Further information available at:

Types:

Investments > €500k

Member States:

Australia

Diseases:

Parkinson's disease & PD-related disorders

Years:

2016
