Dr	Stephanie	Cragg	University of Oxford	United Kingdom
Dr	Michelle	Hu	University of Oxford	United Kingdom

Address of institution of lead PI

Institution University of Oxford, Christ Church

Street Address St. Aldates

City Oxford

Postcode OX1 1DP

Country

United Kingdom

Source of funding information

Parkinson's UK

Total sum awarded (Euro)

5847950.76

Start date of award

01/02/2010

Total duration of award in months

60

The project/programme is most relevant to

- Parkinson's disease

Keywords

Research abstract in English

The Monument Discovery Award ultimately aims to find a cure for Parkinson's – to develop treatments that allow everyone to live free from the symptoms of the condition. Diagnosing Parkinson's before the earliest movement symptoms appear, combined with more effective treatments that tackle the root causes of nerve cell death, will be crucial steps towards a cure. The themes are: Theme 1: What happens inside the nerve cells that die in Parkinson's? Theme 2: Better animal models that truly reflect Parkinson's Theme 3: Diagnosing Parkinson's earlier – before the symptoms develop
