Title of project or programme

Title of PI Elucidation of the pathophysiological consequences of amyloid forms on brain neuroplasticity in course of Alzheimer's disease- development of early diagnostic biomarkers and treatment strategies

Principal Investigators of project/programme grant

Title	Forname	Surname	Institution	Country
Professor Agneta	Nordberg	Karolinska institutet	Sweden	

Address of institution of lead PI

Institution Karolinska institutet
Street Address Karolinska Universitetssjukhuset, Novum, Plan 4
City Stockholm
Postcode 141 86

Country

- Sweden

Total sum awarded (Euro)

534432

Start date of award

01-01-2011

Total duration of award in months

36

The project/programme is most relevant to

- Alzheimer's disease and other dementias

Keywords

Research abstract in English

Lay summary

In which category does this research fall?

- Basic research
