

Group III metabotropic glutamate receptors (mGluRs): from new molecules to therapeutic development for the treatment of Parkinson's disease

<https://www.neurodegenerationresearch.eu/survey/title-of-pigroup-iii-metabotropic-glutamate-receptors-mglurs-from-new-molecules-to-therapeutic-development-for-the-treatment-of-parkinsons-disease/>

Title of project or programme

Title of PI Group III metabotropic glutamate receptors (mGluRs): from new molecules to therapeutic development for the treatment of Parkinson's disease

Principal Investigators of project/programme grant

Title	Forname	Surname	Institution	Country
Research Director	Marianne	AMALRIC	CNRS	France
Research Director	Francine	ACHER	CNRS	France

Address of institution of lead PI

Institution

Street Address 3 place Victor Hugo

City Marseille

Postcode 13331

Country

- France

Source of funding information

Agence Nationale de la Recherche

Total sum awarded (Euro)

632700

Start date of award

01-01-2009

Total duration of award in months

36

The project/programme is most relevant to

- Parkinson's disease

Keywords

Research abstract in English

Lay summary

In which category does this research fall?

- Basic research
