Title of project or programme

Title of PI	Improving functional gait and balance and predicting falls in elderly with an increased risk of falling using a progressive and specific training program – a randomized controlled study

Principal Investigators of project/programme grant

Title	Forname	Surname	Institution	Country
Dr	Erika		Karolinska institutet	Sweden

Address of institution of lead PI

Institution	Karolinska institutet
Street Address	
City	Huddinge
Postcode	141 83

Country

- Sweden

Total sum awarded (Euro)

711240

Start date of award

01-01-2011

Total duration of award in months

48

The project/programme is most relevant to

- Parkinson's disease

Keywords
Research abstract in English
Lay summary
In which category does this research fall?

- Clinical research

Source of funding information

Swedish Research Council
