

Role of BDNF signaling pathways in nigrostriatal dopaminergic degeneration and appearance of dyskinesia in a mouse model of Parkinson's disease

<https://www.neurodegenerationresearch.eu/survey/title-of-pirole-of-bdnf-signaling-pathways-in-nigrostriatal-dopaminergic-degeneration-and-appearance-of-dyskinesia-in-a-mouse-model-of-parkinsons-disease/>

Title of project or programme

Title of PI Role of BDNF signaling pathways in nigrostriatal dopaminergic degeneration and appearance of dyskinesia in a mouse model of Parkinson's disease

Principal Investigators of project/programme grant

Title	Forname	Surname	Institution	Country
Dr.	Manolo	Carta	Lund university	Sweden

Address of institution of lead PI

Institution Lund university

Street Address

City Lund

Postcode 221 84

Country

- Sweden

Total sum awarded (Euro)

591438

Start date of award

01-01-2010

Total duration of award in months

48

The project/programme is most relevant to

- Parkinson's disease

Keywords

Research abstract in English

In which category does this research fall?

- Basic research

Source of funding information

Swedish Research Council
