

# The Norwegian Microarray Consortium

<https://neurodegenerationresearch.eu/survey/title-of-pithe-norwegian-microarray-consortium/>

## Name of RN

Title of PI The Norwegian Microarray Consortium

## Mission of RN

The Core Facilities offer microarray services such as in-house spotted arrays, full hybridisation services on different technology platforms and microarray data analysis to both national and foreign users.

## Director

Title Professor

First name Arne

Last name Sandvik

## Address of central coordination point for the network

Institution Norwegian University of Science and Technology, Department of Cancer Research and Molecular Medicine

Street Address PO Box 8905

City Trondheim

Postcode NO-7491

## Country in which RN operates

- Norway

## Date the RN was established

01-03-2011

## The RN has specific relevance to these neurodegenerative diseases:

- Neurodegenerative disease in general

## Funding source

The Research Council of Norway, Norwegian Cancer Society and others

## Start date for current core funding

01-01-2010

## Website address
