

Therapeutic targeting of amyloid beta-protein oligomers

<https://www.neurodegenerationresearch.eu/survey/title-of-pitherapeutic-targeting-of-amyloid-beta-protein-oligomers/>

Title of project or programme

Title of PI Therapeutic targeting of amyloid beta-protein oligomers

Principal Investigators of project/programme grant

Title	Forname	Surname	Institution	Country
-------	---------	---------	-------------	---------

Prof	Dominic	Walsh	UCD	Ireland
------	---------	-------	-----	---------

Address of institution of lead PI

Institution	University College Dublin
-------------	---------------------------

Street Address	Belfield
----------------	----------

City	Dublin
------	--------

Postcode	4
----------	---

Country

- Ireland

Source of funding information

Science Foundation Ireland

Total sum awarded (Euro)

1596270.00

Start date of award

01-09-2009

Total duration of award in months

60

The project/programme is most relevant to

- Alzheimer's disease and other dementias

Keywords

Aggregation, Alzheimer's disease, amyloid, amyloid beta-protein, Abeta, aptamers cognition, dementia, dimers, expression profiling, Familial British dementia, Familial Danish dementia, memory, oligomers, protein misfolding and synaptic plasticity

Research abstract in English

Lay summary

In which category does this research fall?

- Basic research
