Principal Investigators

Johannes Gräff

Institution

EPFL

Contact information of lead PI

Country

Switzerland

Title of project or programme

Traces towards dementia: Identifying neuronal subpopulations and pathogenic mechanisms at presymptomatic stages of Alzheimer's disease in a new mouse model

Source of funding information

Synapsis Foundation - Alzheimer Research Switzerland ARS

Total sum awarded (Euro)

€ 308,930

Start date of award

Total duration of award in years

3

Keywords

Research Abstract
