Principal Investigators

Prof. Jacek Kuznicki

Institution

International Institute of Molecular and Cell Biology

Contact information of lead PI

Country

Poland

Title of project or programme

Transgenic mice with elevated basal level of calcium ions in neurons as a model of aged-induced neurodegeneration of sporadic Alzheimer's disease

Source of funding information

National Science Centre

Total sum awarded (Euro)

€ 701,831

Start date of award

11.05.2012

Total duration of award in years

6.0

The project/programme is most relevant to:

Alzheimer's disease & other dementias

Keywords

Research Abstract

Lay Summary

Further information available at:

Types:

Investments > €500k

Member States:

Poland

Diseases:

Alzheimer's disease & other dementias

Years:

2016

Database Categories:

N/A
