

Using uncoupling in mitochondria of astrocytes to promote neuroprotection in Alzheimer's disease

<https://www.neurodegenerationresearch.eu/survey/using-uncoupling-in-mitochondria-of-astrocytes-to-promote-neuroprotection-in-alzheimers-disease/>

Principal Investigators

Jean-Yves Chatton

Institution

University of Lausanne

Contact information of lead PI Country

Switzerland

Title of project or programme

Using uncoupling in mitochondria of astrocytes to promote neuroprotection in Alzheimer's disease

Source of funding information

Synapsis Foundation - Alzheimer Research Switzerland ARS

Total sum awarded (Euro)

€ 327,000

Start date of award

Total duration of award in years

3

Keywords

Research Abstract
