

JPcofuND-2 Call for Proposals 2019

Multinational research projects on Personalised Medicine
for Neurodegenerative Diseases

JPND
research

EU Joint Programme – Neurodegenerative Disease Research

Country: Spain

Organisation: National Institute of Health
Carlos III (ISCIII)

This document contains **information on specific requirements** for researchers applying for funding by the funding organisation indicated above. To make sure that your application is fully in line with the specific requirements and to receive latest information, please contact the respective **national contact person**. Not fulfilling the requirements may lead to ineligibility of the application.

Contact

National contact person	<ul style="list-style-type: none">• Mauricio Garcia-Franco Email: mauriciog@isciii.es Tel: (+34) 91 822 2885• Eduard Guell Email: eguell@externos.isciii.es Tel.: (+34) 91 822 2454

Eligibility

Eligible Institutions		Coordinator	Partner
Eligibility of applicants	<ul style="list-style-type: none">• Hospitals, primary health care or public health settings of the Spanish National Health System (SNS)¹• Accredited Health Research Institutes (<i>Institutos de Investigación Sanitaria acreditados</i>, IIS)²	YES	YES
	<ul style="list-style-type: none">• CIBER or CIBERNED	YES	NO
	<ul style="list-style-type: none">• Academia or Research Performing Centers³	Only if an additional Spanish partner of the above categories is also included in the proposal	
	Industry	NO	NO
	Patient organisation	NO	NO
¹ These institutions may manage research via a foundation regulated in accordance to the Spanish Act 50/2002, of December 26th (a copy of the foundation's statutes may be submitted). ² Accredited according to the RD 339/2004, of February 27th			

or RD 279/2016 of June 24th (These institutions may manage research via a foundation regulated according to the Spanish Act 50/ 2002, of December 26th)

<http://www.eng.isciii.es/ISCIII/es/contenidos/fd-investigacion/fd-institutos-investigacion-sanitaria/listado-de-iis-acreditados>

³ Please note that these entities can only participate if they apply together with Hospitals, primary health care or public health settings of the Spanish National Health System (SNS), Accredited Health Research Institutes (Institutos de Investigación Sanitaria acreditados, IIS) CIBER or CIBERNED in the same proposal. It is not allowed to apply independently, thus there must be two beneficiary Spanish institutions in the same proposal.

NOTES:

1. Only one partner per beneficiary institution may be funded within the same proposal.
2. SMEs and other private companies are encouraged to participate at their own cost, or as subcontractors.
3. Only one proposal per partner is allowed.
4. In a clinical study or trial, that requires CROs, it is mandatory for a project partner to be funded by ISCIII also to include a member of SCReN (the Spanish scientific component of ECRIN) as another partner eligible for being funded by ISCIII
5. Researchers with projects ongoing in 2020 funded in an JPco-fuND call of the same type are not eligible for funding by ISCIII in the current call except if the applicant is the coordinator of the project proposal consortium.
6. There is no other incompatibility with AES 2019.
7. Incompatibility for application to any other call are subject to the provisions stated in the relevant call.

Additional requirements

Requirements on data and repositories

1. Researchers funded by ISCIII must make public the human genomic data, as well as relevant data (phenotype and exposition data) generated inside the funded project and will use open access repositories. Researchers must also make public all the necessary information for the interpretation of these genomic data, including lab protocols, data instruments survey tools. Regarding genomic data it is understood: association of complete genomes (GWAS), matrixes of de polymorphism of a single nucleotide (SNP) and sequence of genome, and transcriptomic, metagenomic, epigenomic and gene expression data. The researchers whose projects are funded by ISCIII are recommended to store their scientific data at the " ELIXIR Core Data Resources" or if non-European repositories or data bases they must be certified by ELIXIR or the US National Center for Biotechnology Information (NCBI).

	2. ISCIII may <u>no fund</u> any project that may require a repository and/or a data base without a plan ensuring sustainability and decommissioning after the end of funding.
National phase	<ol style="list-style-type: none"> 1. National applications will be required by ISCIII. Spanish Applicants should periodically check in the web page of ISCIII if they are qualified. ISCIII may not send invitations to the mandatory national phase. 2. Double funding of the same concept is not allowed. 3. Due to administrative and legal regulations, the National Institute of Health Carlos III declares the September 22nd, 2019, as national deadline for the final decision by all relevant funding agencies on a fundable project consortium which includes a Spanish partners to be funded by ISCIII. Any concerned applicant in a proposal for which no final decision has been made all funders in full by such a deadline, may be declared not fundable by ISCIII.
Mandatory acknowledgement	<ul style="list-style-type: none"> • Any publication, data base, product or event protected with IPR or not, resulting from the granted project must acknowledge “Award no. XX by ISCIII thorough AES call 2019 and within the JP-cofuND-2 framework under the umbrella of JPI ND” even after the end of the project.

Budget

Total earmarked national budget	500,000 €	
Anticipated no. of funded groups	3-5 projects tentatively envisaged to be funded.	
Budget restrictions	<ul style="list-style-type: none"> • Up to 100,000 € per partner (overheads included). • Up to 175,000 € per coordinator (overheads included). 	
Eligible costs		
	Coordinator	Partner
<p><u>Personnel</u> Up to 3-year, full-time or part-time contracts (only for additional personnel) Excluded: Students and fellowships.</p>	<p>Total cost per annual full-time contract:</p> <ul style="list-style-type: none"> • Technical expert, higher degree: 29,500 € • Technical expert, medium degree: 24,500 € • Technical expert, FP II: 20,500 € 	Not eligible
Small Equipment	Up to 40,000 €	Up to 20,000
Travel and Allowance	Up to 9,000 €	Up to 4,500
Consumables	Up to 100% of direct cost	
Subcontracting and other services	Up to 50% of total cost. Private (bio)companies and SMEs included	
Overheads	Up to 21% of direct cost	
Eligibility of PI and team members	<ul style="list-style-type: none"> • The Principal Investigator (PI) and all members of the research group must 	

	<p>belong to the eligible institution or be affiliated to CIBER, CIBERNED or an IIS.</p> <p>Excluded personnel as Principal Investigator (PI):</p> <ol style="list-style-type: none"> 1. Those undergoing a postgraduate training in Health Specialization (MIR, FIR, QIR, BIR, PIR). 2. Those undergoing research training (e.g. PhD students, or "Río Hortega" contracts). 3. Researchers contracted by a RETIC or a CONSOLIDER. 4. Those undergoing postdoctoral training (e.g. "Sara Borrell" or "Juan de la Cierva" contracts).
Requirements on data and repositories	<ol style="list-style-type: none"> 1. Researchers funded by ISCIII must make public the human genomic data, as well as relevant data (phenotype and exposition data) generated inside the funded project and will use open access repositories. Researchers must also make public all the necessary information for the interpretation of these genomic data, including lab protocols, data instruments survey tools. Regarding genomic data it is understood: association of complete genomes (GWAS), matrixes of de polymorphism of a single nucleotide (SNP) and sequence of genome, and transcriptomic, metagenomic, epigenomic and gene expression data. The researchers whose projects are funded by ISCIII are recommended to store their scientific data at the "ELIXIR Core Data Resources" or if non-European repositories or data bases they must be certified by ELIXIR or the US National Center for Biotechnology Information (NCBI). 2. ISCIII may <u>not fund</u> any project that may require a repository and/or a data base without a plan ensuring sustainability and decommissioning after the end of funding.
